

# UTC-124

23.8" Ubiquitous Touch Computer  
UTC-124i3 with 11th Gen Intel® Core™ i7/i5/i3 Processor

DeviceOn/iService

## Introduction

UTC-124i3 features an all-in-one computing system which equipped with wide format, touch based LCD panel. It is easy to integrate key peripherals and display systems for diversified self-service and interactive signage deploy in different application areas.

Thanks for the slim and light looking with 3 way cable routing design, makes UTC-124i3 good fit to diverse scenarios and areas.

The systems deliver updated information with well-designed interactive interfaces, with fully ensure relevant content and targeted promotions are delivered. UTC series touch panel computers are the best investments to enhance user satisfaction, further brand equity, and maximize business profits.

Moreover, Advantech DeviceOn/iService Software is a next-generation unified device management solution based on the WISE-DeviceOn platform. With support for batch operations and multi-device control, DeviceOn/iService enables easy device configuration and deployment for convenient remote device management.

## Specifications

## Features

- Slimmer and Lighter design
- Low power and fanless system design
- Built-in Intel® Core™ i5-1145G7E
- 23.8" monitor with 16:9 widescreen display
- IP65-rated front panel for water and dust resistance
- Clean back cover design with 3 Way IO cable routing
- Supports both landscape and portrait screen orientations
- VESA 100 mm standard mounting holes for varied mounting demands
- Support DeviceOn/iService software for remote device management

| UTC-100P-W10E | M.2 Wifi Module (159), UTC-124 Series |
| UTC-100P-W11E | M.2 Wifi Module (165), UTC-124 Series |

# DeviceOn/iService

## Unified Remote Device Management Software

### DeviceOn/iService

### Features

- Supports Advantech devices equipped with Windows, Android, and Linux OS
- Flexible device, location, user, and permissions management
- Enables remote monitoring and control of hardware, software, and peripherals
- Supports over-the-air (OTA) firmware and software updates
- Ensures quick, easy, and secure device onboarding
- RESTful APIs for third-party system integration

### Introduction

Advantech's DeviceOn/iService is a next-generation unified device management solution based on the WISE-DeviceOn platform. Designed to enable centralized monitoring and remote management, DeviceOn/iService supports Advantech devices equipped with Windows, Linux, or Android operating systems. The software also supports the management of applications and integrated peripherals, such as a barcode scanner, card reader, camera, and printer. Users can remotely access and control connected devices, take screenshots, rollout OTA upgrades, and use remote desktop capabilities for troubleshooting from any location at any time. Moreover, DeviceOn/iService supports batch operations to facilitate the management of multiple devices simultaneously for easy and convenient device configuration and deployment.

### Total Management

#### Devices & Hardware

- Windows, Linux, Android
- Hardware, storage, battery

#### Software & Peripherals

- Software monitoring & access
- Screens, USB devices, printers

#### Open for Expansion

- Peripheral integration
- Open APIs for integration

### Remote Access

#### Real-Time Monitoring

- Connection/hardware status
- Software/peripheral status
- Failure notifications

#### Remote Controls

- Power controls
- Audio, backlight controls
- Software controls

#### Troubleshooting

- Screenshots
- Remote desktop support

### Operational Efficiency

#### OTA updates

- System/software updates
- File repository management
- App store

#### Batch Controls

- 1-to-many batch reboot, etc.
- Time-saving tasks

#### Setup Booster

- Software/peripheral watchlist
- Roles, rule templates

Note: Some functions may vary according to the product

### System Architecture
